7 FEB 1962

From: Commanding Officer and Director  
To: Commander, San Francisco Naval Shipyard

Subj: Bldg. 529 and a Portion of Bldg. 506; request for indefinite long-term assignment

Encl: (1) Print of NNDL Sketch 2460-608

1. This Laboratory has an indefinite long-term need for a place to set up a neutron generator. Enclosure (1) shows the space required which consists of:

- a. Bldg. 529 to house the neutron generator,
- b. Four rooms of Bldg. 506 for housing instruments,
- c. A buffer zone around Bldg. 529 which will have to be fenced for radiological safety, and
- d. Parking space adjacent to Bldg. 506 for a research trailer.

2. It is requested that NNDL be given a space assignment in accordance with enclosure (1).

30 JAN 1962

From: Commanding Officer and Director  
 To: Chief, Bureau of Ships (Code 3623)

Subj: Permission to Make Alterations to Bldg. 364 in Connection with  
 Installation of Medium Flux Neutron Generator; request for

Ref: (a) NRDL ltr 905-673 RCL:lvh of 9 Oct 1961  
 (b) SECNAVINST 11013.1D

1. By reference (a) this Laboratory submitted a formal proposal for development of a medium flux neutron source which includes detailed justification. In order to install this neutron source in Bldg. 364 alteration to the building is required. This alteration consists of driving additional piles and strengthening the floor to support the generator and shielding, and making minor changes to the utilities, ventilation, lighting and interior partitions, as required. The cost is estimated at \$23,000. Funds are available at this Laboratory under Subproject SF Q11 05 11 by readjustment within the total available.

2. Reference (b) requires Bureau approval for minor construction projects under \$25,000. It is requested that approval be granted for accomplishing this work, using available funds as outlined above.
